Pencil ETERNO

Code: **19674-02**

ETERNO is a new type of pencil that is always sharpened and always writes. Traditional graphite has been replaced by a special hardened stylus, which offers writing comfort similar to a freshly sharpened pencil. The aluminum body ensures years of durability. There is an eraser at the top that will erase the notes made with an ETERNO pencil (you can use other standard erasers as well). The pencil is part of the eco-trend, which makes it possible to minimize the amount of waste and raw materials in the manufacture of everyday objects. Packed in a black paper case with an infographic on the back.
